

# AUDIT CERTIFICATE

## STANDARD: NIST 800-171 REV 2

Source File: Acceptable\_Use\_Policy.pdf

### \*\*SECTION 1: EXECUTIVE SUMMARY\*\*

The Acceptable Use Policy (AUP) serves as a critical guide for maintaining security and proper usage of agency-owned systems. It outlines the responsibilities of employees and the agency's commitment to safeguarding information assets against misuse.

### \*\*SECTION 2: COMPLIANCE CHECKLIST\*\*

1. \*\*Access Control\*\*: Ensure that access to information systems is limited to authorized users only. [PASS]
2. \*\*Incident Response\*\*: Define procedures for detecting, reporting, and responding to security incidents. [FAIL]
3. \*\*Media Protection\*\*: Use encryption to protect sensitive information from unauthorized access. [PASS]
4. \*\*User Training\*\*: Ensure all employees receive security awareness training on acceptable usage. [FAIL]

### \*\*SECTION 3: CRITICAL GAPS (Citations Required)\*\*

1. \*\*Incident Response\*\*: The policy lacks explicit procedures for incident detection, reporting, and responses as required under \*\*NIST 800-171 Rev 2, 3.6.1\*\*.
2. \*\*User Training\*\*: There is no mention of mandatory security training for employees regarding acceptable use and associated policies as outlined in \*\*NIST 800-171 Rev 2, 3.2.2\*\*.

### \*\*SECTION 4: REMEDIATION PLAN\*\*

- Develop and implement a comprehensive incident response plan that includes detection, reporting, and mitigation procedures.
- Include mandatory security awareness training for all employees, focusing on acceptable use and the specific policies that pertain to data security and user responsibilities.

### \*\*SECTION 5: OFFICIAL SCORE\*\*
